

Examen 22.08.2018

Vraag 1:

Which two theories discussed in the course can explain the phenomenon of crime? Which research methods can be used to test them and what are the policy implications?

Vraag 2:

What is the difference between the 'normal' labelling theory and the victim labelling theory? What are the policy implications?

Vraag 3:

Compare the prison rates from UK USA vs BE NL from the last 20 years. Are crime trends related to prison rates?
